RED BULLETIN STAGE AT VOODOO MUSIC EXPERIENCE

6 Share | Like 15

The Voodoo Experience will present a large-scale exhibition of interactive, site-specific installations scattered throughout City Park in New Orleans, LA. The exhibition will be curated by Stefan Beese and Voodoo founder and producer Stephen Rehage. As in the previous year, this year's exhibition will feature a celebrated group of both local and international artists.

The purpose of the exhibition is to provide another layer in a comprehensive, multi-sensory "experience" that elicits both physical and emotional responses from festival-goers. The vibrant pieces celebrate experimentation with technology and electronic media along with the nonconventional use of sustainable materials.

Date and Location:

October 26-28, 2012
City Park
New Orleans, LA
